Learning about waste: Interested in learning more about waste and what we can do to reduce it but don't feel like reading or prefer visuals? Below is some info about useful video resources and the link to A Roche's page to view

**The Story of Stuff Project** - Their first movie, The Story of Stuff, started it all, launching an honest conversation about our consumption-crazed culture. Since then, they've produced dozens more animated shorts and documentaries that chart a path to a more just and sustainable future. They have a whole series on The Story of ... series which cover Stuff, Bottled Water, Cosmetics, Electronics, Microbeads, Microfibres and many other topics. There are also many other documentaries on their website such as Plastic Documentaries and Water Documentaries.

**Para Kore** - Our partner in Zero Waste produces many videos on Zero Waste from a uniquely Aotearoa perspective. They showcase some of the Zero Waste efforts at marae around the country and also links to many other inspiring videos on their website. Para Kore's youtube channel is also worth checking out with lots of short videos and tips for those on the Zero Waste journey.
