Reflecting on The Lords' Prayer

Gracious God,
we thank you for the prayer Jesus shared—
a prayer spoken across centuries, across
traditions, across hearts.

It may not say all we believe,
but it points us toward what matters:
daily bread, forgiveness, justice, and grace.
Help us to keep praying—not just in words,
but in how we live.

May this ancient prayer awaken fresh hope
and bold compassion within us.

Amen.

FAITHWORKS

is an innovative educational initiative in
faith formation and faith development for
adults and youth.

It is spearheaded by several Presbyterian-
affiliated churches in Hamilton, including
input from Chartwell Cooperating Church.

Faithworks plans to offer a variety of
learning opportunities, with separate tracks
for adults and youth in a variety of areas.

**We need your input so we can best meet
your interests. You can help by taking a
few moments to fill in the survey sheet
available on Sunday, from the office, or
online if requested.**

**Please return to Chartwell Cooperating
Church by August 17th. Many thanks.**

If you need more information please talk to
Gloria Zanders, Ngaire Southon or
Erica Harris.

Eco Corner—the hidden environmental cost of cloud storage Part One

Cloud storage has become an everyday part of life for many of us. From backing up family photos, to running entire businesses, it creates a sense of ease and security. But this simple act - saving a file to the cloud - triggers a complex chain of events in distant data centres.

The 'cloud' is really a network of powerful computers stored in huge warehouses. Every message, every back-up, every binge-watched show relies on physical machines running non-stop. The word 'cloud' hides the reality of an energy-hungry resource-intensive industry working behind the scenes. Some data centres are so huge that they use as much power as a small city.

Electricity is only part of it too - many rely on power produced from coal, oil or natural gas. The digital sector including cloud storage is responsible for around 4 % of worldwide CO2 emissions. That number might seem small, but it is similar to those from the entire airline industry.

Foodbank

Items needed are nappies, hygiene items including sanitary products, cleaning supplies and pet food in addition to the usual items.
